

Toolbar Development

Custom IE Toolbar Development:

We provide "Custom Toolbar Solutions" that suit company's needs and requirements. There are unlimited number of benefits for an organization to have an IE toolbar for website and search engine. With the help of IE toolbar technology, companies can have a permanent impression of website or search engine or both on the internet explorer browser of their visitors. The Custom IE Toolbar of website/search engine will have company's logo as well as it can have direct links to the web pages/sections of website either as buttons or in the form of drop down menus. So, companies can expect more frequent visitors than before. Well, these are just a few examples of how your online business can benefit with an IE toolbar.

Overall Advantage of Custom IE Toolbar:

- One click access to company website & pages through an always present IE toolbar
- Continuous and permanent presence of company's identity on the user's browser
- A unique and innovative way of giving company business a competitive edge
- Increased user retention and usage
- Keeps company logo and message persistent on the user's internet explorer browser with IE toolbar
- No significant financial investment or IT resources required
- Establish a persistent and continuous desktop presence
- Deploy new web products remotely on user's desktop and make them instantly usable

E-Mail Alert Toolbar:

The email alert toolbar is a very popular tool among online email users. This is a free utility that provides instant email notifications for user's MSN Hotmail, Gmail, Yahoo Mail and AOL Mail. This utility also keeps the user auto-logged in for easy access when directly accessing email online.

My Space / Yahoo Space / Google Space Toolbar:

The space Toolbar is a very popular tool among MySpace, Gmail & Yahoo users. This is a free utility that provides instant notifications on user's MySpace account. Users choose what they would like to be alerted for New Messages, New Comments, New Friend Requests, Birthdays, Event Invitations, New Blog Comments and Kudos and New Video Comments. They also receive email notifications for same.
